

8.12

Sanitize shopping baskets and trolleys in just few seconds

At the basis of protection and prevention from viruses and bacteria there it must be a thorough and regular hygiene routine, specially in crowded environments such as supermarkets and shopping centers where the protection of hygiene represents a real challenge.

Sanitizing Basket is a device for the sanitization of shopping baskets with automatic operation **capable of breaking down the bacterial and viral load of over 99%**.

Sanitizing Basket allows a simple and effective sanitization that takes place in seconds thanks to the use of a rapidly evaporating hydroalcoholic solution.

AREAS OF APPLICATION:

- Supermarkets
- Shopping Centers
- Airports
- Warehouses
- Hospitals

AVAILABLE CONFIGURATIONS

| CODE | MOD. |
|------------|-------------------------|
| 10.3544.00 | Sanitizing Basket 230 V |

TECHNICAL FEATURES

- Dimensions: 650 x 1205 x 600 mm
- Power supply: 230 V
- Working Pressure: 15 Bar (Adjustable)
- Number of nozzles (Basket area): 1
- Sanitizer delivery time: 3 sec (Adjustable)
- Tank capacity: 14 Liters
- Weight: 30 Kg
- Flow rate: 0,065 L/min
- Power: 48 W
- Electric panel: IP65
